Welcome
to my
PORTFOLIO

I'm interested in exploring the intersection of art and technology, particularly through coding and creative projects.

"Where focus goes, energy flows."

Scroll down

Hello !

As a junior Web Developer and UI/UX Designer based in Finland, I get to combine my love for technology with my passion for art and design.

I enjoy using my creativity and problem-solving skills to create digital experiences that not only look great but also work seamlessly for the users.
